High Definition for Every Complexion
Healthy, Flawless Coverage

Celebré^{HD} PRO

Mehron, the extreme beauty leader, is proud to introduce Celebré PRO-HD Makeup Foundation.

This latest innovative product is the result of collaborative efforts by the chemists in Mehron's product development lab along with input from a select group of highly acclaimed makeup artists. Celebré PRO-HD Makeup Foundation is an oil-free and fragrance-free cream makeup that delivers satin-smooth, buildable coverage that is non-greasy and great for all skin types. Our experienced chemists formulated Celebré PRO-HD to be buildable to suit the amount of coverage needed. It contains powerful antioxidants such as vitamin E, pomegranate and aloe vera that help soothe the skin.

Renowned industry makeup artists worked with the experts at Mehron to create an impressive array of colors to accommodate all skin tones. The results of their

efforts is a perfect range of colors that will be sold individually

for consumers or in a 20 color palette for professional makeup

artists. From fashion runways and HD-TV to everyday

wear, Celebré

Pro-HD works

for every

occasion and

on all skin types

and colors.
